INAUGURAZIONE

31 maggio 2012

19:00 - 21:00

Brand New Gallery presenta la collettiva *Changing states of matters*, una mostra pensata per svelare i processi della creazione artistica, che si svolgono attraverso una “produzione ipotetica” del reale, portata al limite estremo dell’esperienza sensoriale. Attraverso la frammentazione del lavoro iniziale, questo gruppo di artisti indaga la materia per rivelarne nuove forme e sembianze, dando vita a mondi misteriosi ottenuti sovvertendo le tecniche artistiche tradizionali. OPENING

31 May 2012

19:00 - 21:00

Brand New Gallery presents the joint exhibition *Changing States of Matter*, a show that sets out to reveal the processes behind artistic creation, processes that involve a ‘hypothetical production’ of the real, taken to the extreme limit of sensory experience. Through fragmentation of the initial work, this group of artists probes matter in ways that bring it to light in new forms and guises, giving rise to mysterious worlds obtained by the subversion of traditional artistic techniques.
